

JVC Expands True Wireless Headphone Line with the New HA-A3T Earbuds

New from JVC the HA-A3T true wireless earbuds available in black and white.

Offering convenient touch controls, Bluetooth 5.1, auto-on and connect, and Quick Charge, which provides 90 minutes of playback from a 15-minute charge.

The HA-A3T features a clean simple, lightweight design that offers the comfort and open feel that make the earbud style so popular. Touch sensor controls eliminate the discomfort associated with using earbud-mounted buttons.

For further convenience, the earbuds automatically power on and connect when removed from the case, and power off when returned to the case. The built-in battery and charging case provide up to 22-hours of playback, there's a hands-free microphone, and the earbuds are rain-proof with an IPX4 rating.
